Intercept Health
Children’s Community Home Per Diem Rate Schedules
July 1, 2019 – June 30, 2020

Children’s Community Home: Shire House

Intercept Health’s Children’s Level-B Community Home is designed to treat males and females, ages 7-12 years of age. We create a comfortable and supportive environment for our young clients to receive the treatment they need to successfully transition into a family setting. Children with psychiatric disorders relating to mood instability, conduct issues or even sexual reactive behaviors will receive weekly individual and group therapy with a licensed or licensed-eligible clinician. Family engagement will be a priority so that natural supports are maintained and placement in a family setting can be achieved. In addition, they will be provided a structured, therapeutic milieu that will include age appropriate psycho-educational groups, mixed with fun recreation activities daily that will be catered to each client’s identified treatment goals.

Comprehensive Daily Rate Breakdown:

Residential Room & Board	\$203.94
Residential Day Supervision (Therapeutic Behavioral Services) ¹	\$146.22
Total Comprehensive Daily Rate	<u>\$350.16</u>

1. For Medicaid-eligible residents, Therapeutic Behavioral Services for Children and Adolescents under age 21 (Level B) are reimbursed by Virginia Medicaid at the rate of \$146.22 per day. The Procedure Codes are H2020-HW (CSA) and H2020-HK (non-CSA).
-

Optional Services not included in the Comprehensive Daily Rate:

360 – Therapeutic Mentoring & Life Skills Coaching \$52.25/ per hour

Intercept Health

Assessment Options

- **Psychological Testing** - Included in A&D Track; not included in 30-day Stabilization Track; Testing may include Cognitive, Personality/MSE, Educational testing based on appropriateness.
 - Cognitive assessments include administration of a valid IQ test (e. g. WISC, WAIS, WJ COG, DTLA), as well as supplemental testing as needed. For example, this might include tests of executive functioning, memory, language, fine motor skills.
 - Personality/MSE assessments include structured clinical interviews and mental status examination and other measures tailored to client needs, for example, behavioral and symptomatic questionnaire and assessments based on clinical presentation may include, but are not limited to use of tools such as Behavioral and Emotional Rating Scale (BERS-2), Casey Life Skills Assessment, Youth Resiliency Checklist, Strengths and Needs Assessment (SNA), Severity Measure for Generalized Anxiety Disorder, Affective Reactivity Index, Beck Depression Inventory, as well as projective techniques such as Rorschach Inkblots, Incomplete Sentences, and personality testing (MMPI-Adolescent)
 - Educational testing includes administration of a valid, standardized achievement test battery (e.g. WIAT, WJ ACH), as well as supplemental testing as needed.

- **Sexual Offense Assessment (i.e. J-SOAP, SAI, Phase Questionnaire)** - Included as appropriate
- **Psycho-Sexual Evaluation** - \$800 (based on availability)
- **Genogram** - Included in A&D Track; not included in 30-day Stabilization Track
- **Physical Examination** \$250.00 (unless covered by insurance)
- **Dental Examination** \$200.00 (unless covered by insurance)

1. For Medicaid-eligible residents, Therapeutic Behavioral Services for Children and Adolescents under age 21 (Level B) are reimbursed by Virginia Medicaid at the rate of \$146.22 per day. The Procedure Codes are H2020-HW (CSA) and H2020- HK (non-CSA).

2. 2. Additional Daily Supervision includes increased staffing patterns to provide adequate sight and sound supervision while completing the assessment and evaluating “what is and is not working” for the youth. This fee is associated with increased clinical support, increased staffing patterns, and on-going observations in order to make adjustments to the behavior support program based on the youth’s individual strengths and needs.

2019-2020

Therapeutic Teaching Parent Payment: (Enhanced Maintenance Payment – Per VEMAT) ... Enhanced Maintenance Payment is the source of the payment to foster parents for the extra supervision involved in their work with special needs/emotionally disturbed youth as defined by the Virginia Enhanced Maintenance Assessment Tool (VEMAT).

Private Foster Care Support Supervision and Administration- Level 3 Intensive ... The needs of a child served at level 3 on-going treatment foster care are of such acuity or severity that they require intensive action (interventions, services, supports etc.) be taken to address, remedy or ameliorate the needs. Without such intervention(s) the child may be at risk of residential placement. Children served at level 3 will demonstrate a high level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring, or intellectually disabled.* Every month respectively, Intercept Health Staff will provide at least four (4) face to face visits with the youth, two (2) of which are conducted in the treatment foster home.

Private Foster Care Support Supervision and Administration - Level 2 Intermediate.... The needs of a child served at level 2 on-going treatment foster care require that significant action (interventions, services, supports etc.) be taken to address, remedy or ameliorate the identified needs. Children served at level 2 will typically demonstrate relatively moderate level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring or, intellectually disabled.* Every month respectively, Intercept Health Staff will provide at least three (3) face to face visits with the youth, one (1) of which is conducted in the treatment foster home.

Private Foster Care Support Supervision and Administration- Level 1 Therapeutic.... The needs of a child served at level 1 on-going treatment foster care require monitoring or the LCPA may need to provide services to lessen the likelihood that identified needs will become more acute or return after being “resolved”. Children served level 1 will typically demonstrate a relatively low level of social/emotional/behavioral/medical/personal care needs or impairment for normal range of age and development. *Areas of need may include but not be limited to, depression, anxiety, impulsivity, hyperactivity, anger control, adjustment to trauma, oppositional, substance abuse, eating disorder, physical health condition, developmental delay, serious or life threatening illnesses or conditions that require the routine use of a medical device, and / or daily ongoing care/monitoring or intellectually disabled.* Every month respectively, Intercept Health Staff will provide at least two (2) face to face visits with the youth, one (1) of which is conducted in the treatment foster home.

Assessment Treatment Level... Children served at the assessment level of treatment foster care are those who are newly placed with licensed child placing agency and for whom an assessment to determine the appropriate level of foster care services is being conducted. The maximum stay at the Assessment Treatment Level shall not exceed sixty (60) days to complete a needs assessment and service plan, per requirements of VDSS, Division of licensing Programs. The time frame of the assessment may vary based on the accurate and thorough assessment of the child's strengths and needs.

Non-Treatment Foster Care... Children served at the non-treatment level of foster care may be developmentally on target, demonstrate age appropriate behaviors, able to participate in community activities without restriction, or be the sibling of a child who meets the criteria for on-going TFC placement in the same foster home. Children shall be served at the Non-treatment Foster Care level if the assessment indicates treatment foster care services are not needed. Children/youth placed on the Non-Treatment Foster Care Level are not expected to meet DMAS criteria; this service includes a maximum of one (1) face to face visit with the youth in the treatment foster home and (1) face to face visit every 60 days conducted by Intercept Health Staff. This contact per month includes 24/7 crisis intervention.

*All TFC-Support & Supervision Levels may have additional support services that assist in the implementation of the child/youth's treatment goals/objectives and/or permanency goal/discharge plan.

TFC Case Management ... Defined by DMAS in 2007, this service assists clients in gaining access to needed medical, social, educational and other services. It covers assessment, planning, referral and monitoring of services. It does not cover direct delivery of services, recruitment and approval of foster parents, their training, staff training, client placement, foster parent support, supervision and other service components of TFC. This service is combined with the appropriate level of TFC-Supervision & Support described above. This service may or may not be covered by Medicaid depending upon the eligibility of the child. It is billed at a day rate when paid through CSA.

Infant Rate/Support Service ... This rate covers coordination of and services for infants who remain in the custody of a Treatment Foster Care client. This is an additional service that can be contracted on a case by case basis. Services for the infant will be monitored through the relationship with the client when placed together. The Infant Rate/Supportive Service and the Basic Maintenance for the infant is added to the client's charges. For infants who are in the custody of social services and placed in an Intercept Health home, all individual foster care rates apply for infant.

Overnight Pre-Placement Visits... There is no charge for daytime or overnight pre-placement visits. The visits are intended to ensure proper placement and adjustment of child and family prior to formal placement. Mileage and travel expense reimbursement can be agreed upon for unique situations in advance of pre-placement visits on a case by case basis.

Supportive In-Home ... This is an add on service, that can be utilized in conjunction with the TFC-Support & Supervision and TFC Case Management services to offer individual and/or family counseling services to assist in the transition of children/youth from higher levels of care before s/he is placed in the treatment foster care home or to provide extra therapeutic support to a child/youth who may be at risk of placement disruption.

Short-term Foster Care Services (Community) ... This is designed to provide crisis or alternate planned-support relief for up to 29 consecutive calendar days to families in need of substitute care placement arrangements for children/youth. The substitute care placement environments used are approved Intercept Health foster homes. Short-term overnight care:

Level 1: Overnight respite care for children with behavioral issues requiring minimal to no intervention

Level 2: Overnight respite care for children with behavioral issues requiring major interventions

Respite Services ... This is a temporary, internal support service provided to approved Intercept Health foster families, for which Intercept Staff arrange on their behalf with other internal Intercept Health foster homes by reviewing respite care options with teaching parents and by the matching children with respite caregivers. Respite Services provide valuable support and relief to the primary treatment foster families while ensuring the health and safety of the client and families. Use of respite is also a healthy mechanism to enhance attachments for children/youth with their caregivers. This service can also provide emergency relief to internal Intercept Health families in crisis situations. An accrual system is utilized with Intercept Health foster families. This service can be contracted to allow for additional respite services for children/youth on a case by case basis when the child/youth has exceptional needs.

Therapeutic Educational Support Services... This is an additional service that can be contracted for to provide specialized assistance or support to a child/youth who is having academic difficulties.

Therapeutic Mentoring... Can be provided by Intercept Health's 360 Transitional Solutions division or contracted with another provider. See Intercept Health's Community Based Services rate sheet for this and other add on services.

Parenting Skills Training for Reunification with Bio/Adoptive Parents ... Where reunification is the goal and proximity allows (approximately within 45 miles of an Intercept Health office), and with the agreement of the child's custodial agency, Family Consultants may provide individualized training and consultation directly to the parents regarding strategies that have proven successful with the child in the Teaching Parent home. Parents are encouraged to attend the agency's Parenting Skills Training program in preparation for the child's return. Consultation and training may be conducted either in the parent(s)' home or at Intercept Health' offices if travel distances allow. Other support services may be contracted for

Crisis Stabilization (Urban / Rural) ... this is a Medicaid eligible program for children, adolescents & adults at-risk of psychiatric hospitalization and/or incarceration due to mental health issues. Crisis One provides clinical crisis services in the homes and communities of individuals experiencing suicidal ideations, severe depression, aggressive or self-harming behaviors, extreme social isolation, threatening behaviors, dangerous decision making, property destruction, hallucinations/delusional thinking, and other decompensating changes in behavior that prompt concern.

Behavioral Support Specialist ... This is an additional service that can be contracted on a case by case basis to provide specialized assistance/support to a child/youth who has exceptional behavioral/emotional/other needs. Intercept Health BSS is responsible for providing individualized support to client/youth for 5 hours per week or more as needed to address child/youth's individualized needs.

Service descriptions last revised 5/3/19

“There is no charge for non-treatment level case management. In addition, if Medicaid determines the child does not meet medical necessity criteria and denies Treatment Foster Care Case Management, CSA may pay for case management based on justification of need. In all cases, Provider must obtain FAPT/CPMT prior approval.”

Intercept Health
YouthQuest Anywhere Per Diem Rate Schedule
Community based Independent Living Services
July 1, 2019 – June 30, 2020

Comprehensive Rate and Services:

YouthQuest is excited to offer a community based independent living services providing intensive 1:1 case management and independent living training for youth in their own apartment. The service is set up in 3-month tiers and is designed to be completed in a year or as the youth achieves proficiency. During this service youth will be able to build their rental histories, manage their money, attend an educational program and establish employment stability. Program Staff will use the Casey Life Skills Assessments, provide support 24 hours a day, provide 1:1 training, and case management services to the youth as they continue to live independently.

Room and Board: Responsibility of the youth

Independent Living Services:

\$50.00/per hour

The following services are included in the Independent Living Service:

- Identify and secure housing
- Maintain housing
- Create a transitional living plan, and work on goals
- Identify and utilize community and family resources and supports
- Obtaining and maintaining employment
- Explore and enroll in educational programming
- Make progress toward educational programming goals
- Identify and use public transportation
- Develop and follow a budget/spending plan

YouthQuest Independent Living (18 years old +)
Independent Living Per Diem Rate Schedule
July 1, 2019 – June 30, 2020

Comprehensive Daily Rate and Services:

Independent Living Services	\$190.10/day
YouthQuest Room and Board	\$ 644.00/month

Note: The Independent Living Stipend and/or Fostering Futures Maintenance Payment that YouthQuest will be receiving on behalf of the youth will be used to cover the YouthQuest Room and Board rate. With the youth who are receiving the Fostering Futures Maintenance Payment, the additional \$77 from the \$721 maintenance payment will be placed in the youth's YouthQuest savings account. The youth will be allowed to use the \$77 that is placed into their savings account for their personal monthly expenses as well as to work on their money management skills.

YouthQuest is a licensed independent living arrangement that serves youth, aged 17-21, from a variety of previous placements with varied psychiatric diagnoses and behavioral disorders. YouthQuest provides 1:1 case management in a structured, supervised apartment setting where youth work on goals, specific to them, in areas such as: menu and meal planning, food preparation, cleaning and other household maintenance, identifying and securing housing, identifying and utilizing community and family supports, obtaining and maintaining employment, exploring then enrolling and succeeding in educational programs, scheduling college and/or vocational tours, identifying and using public transportation, developing and following a budget, practicing daily hygiene, refraining from substance use, learning social skills, etc. For the youth in YouthQuest for Moms and Dads, there are additional parenting education and support services included.

Community Based Services Descriptions

July 1, 2019 – June 30, 2020

Intensive In-Home Services - Services for children/adolescents under the age of 21. Services are intensive, time-limited interventions provided typically but not solely in the residence of a child who is at-risk of being moved into an out of home placement or who is being transitioned to the home from an out of home placement due to documented clinical needs of the child. These services provide crisis treatment, individual and family counseling and communication skills (e.g. counseling to assist the child and his parent to understand and practice appropriate problem-solving, anger management, and interpersonal interactions, etc.) and coordination with other required services. Services also included 24-hour emergency response.

Individualized Support Services - Support and other structured services provided to strengthen individual skills and or provide environmental supports for individuals with behavioral/mental health problems. Services are based on the needs of the individual and include training and assistance. Services include Supportive In-home non- licensed service.

Crisis Intervention and Crisis Stabilization (Crisis One - Mobile Crisis Services) - Crisis One is a mobile crisis service for children, adolescents & adults who are experiencing an acute crisis of a psychiatric nature that may jeopardize their current community living situation. Crisis One provides clinical crisis services in the homes and communities of individuals experiencing suicidal ideations, severe depression, aggressive or self-harming behaviors, extreme social isolation, threatening behaviors, dangerous decision making, property destruction, hallucinations/delusional thinking, and other changes in behavior that prompt concern of decompensation.

Psychiatric Stabilization Service – (Non-Medicaid) Psychiatric Stabilization Services are for children, adolescents & adults who are experiencing an acute crisis of a psychiatric nature that may jeopardize their current living situation and may result in hospitalization. Services may be provided to caregivers and/or involved professionals with or without the client. Participation in treatment team meetings, service coordination and referral work with or without the client is within the scope of care.

Mental Health Skill-Building Service - A training service for individuals with significant psychiatric functional limitations. Services are designed to train individuals in functions skills and appropriate behavior related to the individual's health and safety, activities of daily living and use of community resources, assistance with medication management and monitoring health, nutrition and physical condition. These services are intended to enable individual with significant mental illness to achieve and maintain community stability and independence in the most appropriate, least restrictive environment.

360° Transitional Solutions- Community based programming providing a variety of strength-based services to youth in the community address daily living skills, social, emotional and communication. ***Service include:***

- ***Therapeutic Mentoring, Life Skill Coaching:*** -- is available to all school aged children under the age of 21. Transitional Specialists focus on life skills proficiency, anger management, social skills training, leadership and academic support. 360 is equipped to work with the special needs' population, including autism, Life Skill Coaches also focus on criminogenic risk factors for the DJJ population. This is a one to one service.
- ***Surveillance,***

- **GPS Monitoring**
- **Transportation**
- **Therapeutic Aide** - One on one support for clients in the community and school setting. A Behavioral Assessment will be completed upon initiation to include observation, documentation review and interviews with members of the treatment team to help identify goals for the Behavioral Plan. A Behavioral Plan will detail the Goals, Objectives and Interventions to be implemented to address the identified problems areas inhibiting the client's stability and success. Staff are trained in trauma-informed care, PBIS and resiliency theory.
- **Behavioral Assessment** – (Included with all Therapeutic Aide Services)
Includes observation, documentation review and interviews with connected individuals (guardian, social worker, school personnel, etc.) to formulate the Behavioral Plan. The Behavioral Plan will detail the Goals, Objectives and Interventions to be implemented to address the identified problems areas inhibiting the client's stability and success.

Raising Our Children (ROC) – Home Based Parent Counseling focused on six core areas including nurturing and attachment; childcare and safety; health and nutrition; child growth and development; positive discipline; and parental and family resilience. ROC promotes a healthy parent-child relationship and utilizes the Nurturing Parenting Curriculum, an evidence-based program.

Therapeutic Day Treatment: Therapeutic Day Treatment (TDT) is school based counseling for at risk students exhibiting behavioral, emotional, or mental illness characteristics. TDT utilizes a Positive Behavioral Support model to identify, address and decrease problem behaviors and assist the student with optimal classroom behavior.

Parent Coaching: a prevention service that empowers caretakers with the knowledge and tools necessary to parent effectively and with confidence while maintaining a healthy, nurturing relationship with their child. Parent Coaching offers individualized approaches to teach caretakers parenting skills through an evidenced-based parenting curriculum. During home-based sessions, parenting specialists provide remedial review of curriculum information, model parenting skills, role-play parenting techniques with the caretaker, facilitate opportunities for caretakers to begin practicing healthy parenting strategies within their parent-child relationship, and tailor their intervention to meet the unique needs of each caretaker.

ABA Services:

ABA Home/Community Based Services:

- **Initial Assessment and Behavioral Therapy** – In home behavioral therapy (Medicaid service) – services for children/adolescents under the age of 21 with intellectual and developmental disabilities. Services are provided to individuals identified as having behavioral and/or social-communication deficits within the home or community. The service is individualized for the client's needs and designed to provide evidence-based interventions to meet the objectives in the client's individual service plan (ISP), inclusive of 1:1 behavioral therapy, family/caregiver training and care coordination. ABA services are supervised by a Licensed Behavior Analyst (LBA) or Licensed Assistant Behavior Analyst (LABA). 1:1 behavioral therapy is provided by a Behavior Technician and closely supervised by the LBA/LABA.

- **Therapeutic Behavioral Consultation (ID/DD waiver service)** – Services for children, adolescents and adults with intellectual and developmental disabilities. The service is intensive and time limited. It includes providing expertise, training and technical assistance in clients’ homes or communities to assist family members, caregivers, and other service providers in supporting the individual to facilitate implementation of the client’s desired outcomes as identified in the ISP or Plan of Care (POC). The service aims to address increasing socially acceptable appropriate behaviors and community integration while decreasing challenging behaviors and preventing additional challenging behaviors.

ABA School Services:

- **Ongoing Training, Coaching and Consultation** - Intercept Health offers ongoing training and consultation from a Licensed Behavior Analyst (LBA) to meet the needs of classrooms serving intellectual and developmental disabilities, specifically autism. The LBA will conduct a needs assessment with the classrooms and teachers identified by the school division. This activity helps to identify the areas of strength and areas for growth within the assigned classrooms and/or programs. The LBA may conduct observations, interviews and records reviews as part of the need’s assessment. The LBA, school leadership and designated staff will then develop a plan of action to provide ongoing training, coaching and consultation for staff and program growth development. The LBA may also provide direct consultation for specific students when requested. And the LBA may deliver large scale trainings or workshops for professional development for all staff when requested.
- **Registered Behavior Technicians** - Intercept Health deploys Registered Behavior Technicians to provide 1:1 support or may support multiple students (2-5) in one school setting or classroom. Intercept Health’s RBTs are highly trained in ABA strategies and how to implement them within a school setting. In conjunction with this service an Intercept Health Licensed Behavior Analyst provides ongoing supervision and oversight to the RBTs. *(this model most closely replicates Medicaid’s home and community-based service model for ABA)*
- **Registered Behavior Technician (RBT) Supervision** - The Behavior Analyst Certification Board® has established standards for a credential- Registered Behavior Technician (RBT). This credential was created to establish training, competency and ongoing supervision standards for staff who are responsible for working directly with students/clients with developmental disabilities and/or behavioral issues. This certification may be helpful for special education teachers to obtain and maintain. To obtain the certification an individual must pass a competency assessment and written exam. To maintain the certification an individual must receive ongoing supervision from a Licensed Behavior Analyst (LBA) for a minimum of 5% of hours worked applying ABA. Intercept Health offers the competency assessment and the ongoing supervision. Intercept Health will provide a list of online training options for the 40-hour training component.
- **FBA Independent Education Evaluation** – service provided to public schools. The service consists of a functional behavior assessment to include, observations, interviews, data collection and analyze, formal written report with recommendations and meeting to review formal report with educational team.
